

SHEP Understanding and Using the New UKCA & UKNI Marks

**Thursday 25th February 2021
12.00pm ending at 1.00pm**

GoToWebinar – Hosted by BESA

The UKCA (UK Conformity Assessed) marking is a new UK product marking that is used for goods being placed on the market in Great Britain (England, Wales and Scotland). It covers most goods which previously required the CE marking – but not all. The UKCA marking alone cannot be used for goods placed on the Northern Ireland market, which require the EU CE marking or UKNI marking.

As a manufacturer or a distributor of products at home or abroad, it is now a legal requirement that companies know when and how to apply these new marks. Also, when and where the old EU CE Mark still applies. This webinar seeks to clarify this situation and provide simple answers to these all-important questions.

The webinar will cover; a general overview of all three Marks, a closer look at exporting to and importing from Northern Ireland, a specific focus on importing PPE, and a Q&A session.

Speakers include:

Benedict Lucken, Business Readiness Team Leader, BEIS (Department for Business, Energy and Industrial Strategy)

Paul Manning, Membership Manager, British Safety Industry Federation

Who should attend:

The event is aimed at managers and directors in SME companies
